Job description

Financial Accounting Manager/Qualified Accountant

Zurich Financial Services Group (Zurich) is an insurance-based Financial Services provider with a global network of subsidiaries and offices in North America and Europe as well as in Asia Pacific, Latin America and other markets. Founded in 1872, the Group is headquartered in Zurich, Switzerland.

The Opportunity: This role would suit someone who is looking for move out of practice into industry.

This new and challenging position requires a talented qualified Accountant to act as a key member of a Technical team in the Finance Function with accountability for managing areas of technical expertise ensuring that the team delivers a high quality cost effective service to its customers. Financial accounting processes are centralised in Switzerland and the UK. Financial Accounting team are responsible for both providing accounting expertise in the UK and assurance to UK Directors/CFOs on financial reporting and accounting policies both to group and external bodies.

Key accountabilities will include:

- Responsible for delivering a financial accounting service for retained UK business.
- Responsible for providing assurance and support to CFO and Board Directors.
- Balance sheet and cash flow analysis and control.
- Responsible for coordination and reporting of risk related activity within the UK Finance team.
- Lead the team in assigned projects to achieve targets and ultimately operational goals to timetable.
- People responsibility as designated.

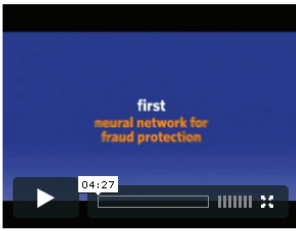

Display Jobs Listing

- High impact advert with your organisations' branding.
- Can host video or PowerPoint.

Careers

Position: Controller – Asia Pacific Geographies

Location: Singapore [Overseas] **Start:** Immediate **Duration:**

Working at Visa

The work of our employees touches billions of people worldwide. Join a global work force that is leading the electronic payments industry and changing the way people live.

Job Description

Visa Inc. is a global payments technology company that connects consumers, businesses, financial institutions and governments in more than 200 countries and territories, enabling them to use digital currency instead of cash and checks.

Visa does not issue cards, extend credit or set rates and fees for consumers. Visa's innovations enable its bank customers to offer consumers choices: Pay now with debit, ahead of time with prepaid or later with credit products. From the world's major cities to remote areas without banks, people are increasingly relying on digital currency along with mobile technology to use their money anytime, make purchases online, transfer funds and access basic Financial Services. All of which makes their lives easier and helps grow economies.

Behind the Visa brand are more than 5,000 talented employees who continuously raise the bar with innovative solutions and products that deliver the convenience and security of digital currency to more people all over the world.

Position Summary

The Controller – Asia Pacific Geographies ("Controller") position, base in Singapore, has responsibility for ensuring the integrity and accuracy of the financial statements for Visa's activities in the Asia Pacific (ASPAC) geographies. Financial reporting for which the Controller will be responsible includes, but is not limited to:

- US GAAP financial results included in Visa's consolidated financial statements.
- Local statutory financial statements and reports prepared under IFRS or local GAAP standards, to comply with all local requirements.
- Internal reports for management reporting purposes. While the Controller is not primarily responsible for the preparation of management reporting, they will need to work with other members of the Finance team to ensure the integrity of these reports under US GAAP.

This position will oversee Controllorship functions for country operations and will embed a culture of continuous process improvement to drive efficiency and future scalability, as well as maintain streamlined and effective internal controls. The role will require extensive interaction with
